

Starting salaries for nuclear engineers and health physicists are high.

TOP 10 Reasons to check out NERHP at OSU

We are committed to innovation as a collaborative community seeking solutions to environmental, health, security, and energy challenges.

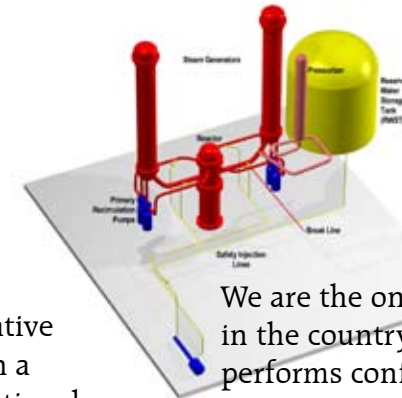

You can get a job in your field right out of college.

In 2008, U.S. News and World Report ranked OSU's Nuclear Engineering and Radiation Health Physics Department #8 in the nation.

We have collaborative relationships with a majority of the national energy laboratories where our students gain valuable work experience.

We are the only NERHP department in the country with a facility that performs confirmatory tests for nuclear power plants. This gives our students real-world knowledge they can't get anywhere else.

NERHP offers a unique hands-on education in state-of-the-art facilities. We are the only university on the west coast with a 1 megawatt TRIGA research reactor.

This is COOL Stuff!
