

Dr. Galvin is a Research Assistant Professor in the Department of Nuclear Engineering and Radiation Health Physics. He holds a Bachelor of Science in Nuclear Engineering from Oregon State University (1992); a Master of Science in Nuclear Engineering and a Naval Engineer's Degree from the Massachusetts Institute of Technology (2001); and a Doctor of Philosophy in Nuclear Engineering from Oregon State University (2009). His areas of interest include systems engineering, nuclear reactor engineering and design, thermal-hydraulics and reactor safety, transient analysis of nuclear power systems, and instrumentation and control of nuclear systems.

Dr. Galvin is a retired U.S. Naval Officer, with experience in both submarine nuclear propulsion and strategic weapons systems. He has been at Oregon State University since 2009, and is currently the Facility Manager for the OSU MASLWR Test Facility. In this capacity he leads a testing program in support of the certification and licensing of an advanced reactor concept, and conduct of thermal hydraulic experimental and analytical research related to nuclear reactor safety and operations pertaining to natural circulation reactor concepts.
