

**Graduate Research Assistantships in Thermal Hydraulics.** The Oregon State University Department of Nuclear Engineering and Radiation Health Physics invite applicants for multiple graduate research assistant positions in the area of thermal hydraulics. We currently have several projects related to experimental heat transfer, fluid dynamics and thermal hydraulic system design available. Both Ph.D. and M.S. students will be considered. Positions are open until filled. For information, please contact Prof. Brian Woods, Department of Nuclear Engineering and Radiation Health Physics, Oregon State University, 116 Radiation Center, Corvallis, OR 97331; phone: 541-737-6335; e-mail: [brian.woods@oregonstate.edu](mailto:brian.woods@oregonstate.edu).
